

Setting up a WiFi hotspot
Bosch Coach MediaRouter

Before you start setting up, please make sure that:

- Are all cables plugged in? (e.g. power supply, LTE antenna).
- Insert the SIM card into one of the two designated slots.
- Write down the serial number and the WLAN password (or make sure you have the BOSCH information card at hand).
- Connect to the WLAN (The SSID will be something like Bosch Router 12345 - normally the last 5 digits of the serial number are used).

1. After successful connection with the BOSCH Coach MediaRouter, please open a browser and navigate to the URL 192.168.1.1 or enter the address 'http://bosch.router' in your browser.

4. Now please check the information in the menu 'Settings' > 'Device information'.
HOTSLOTS services are only available for software versions 1.1.466 or later.

HOTSLOTS Try&Buy offer is available from version 1.1.1162. You will find more information starting from point 9 in this document.

The screenshot displays the Bosch HOTSLOTS web interface. The top navigation bar includes links for Home, Overview, Position, Media Server, Settings (selected), Services, and Help. The main content area is divided into several sections:

- SIM Selection:** Shows 'Active SIM' set to 'Automatic'.
- Internet:** Contains 'Connection' details (Internet IP: 123.123.123.123, SIM profile: T-Mobile(Telekom) - T-Mobile LTE, Roaming: Deactivated) and 'SIM cards' status (SIM Slot 1: SIM card active, SIM Slot 2: No SIM card inserted).
- Public hotspot settings:** Shows 'Provider: hotspots', 'Hotspot name: BCMROCO123456789', and 'VPN gateway: Connection disconnected'.

The 'Settings' menu is open, showing a list of options: Internet, Cascading, WLAN, SIM Preferences, Landing Page, Services, System settings, Domain filtering, Update, Device information (selected), and Logout. The 'Device information' sub-menu is visible, displaying the following details:

Parameter	Value
Router IP	192.168.1.1
SSID	Bosch Router 012345
Work mode	Mixed b/g/n
Encryption	WPA2
Devices (1)	
M30-70	192.168.1.61

The bottom status bar shows the connection to Telekom.de Telekom.de 3G, with a download speed of 36.72 KB and an upload speed of 30.71 KB. The language is set to English.

5. Point 6 describes how to perform a software update.

If you do not need to update, please skip this point and continue directly with Point 8.

12. Please follow the instructions on the page to start the free trial period immediately.

Thank you for choosing Bosch Coach MediaRouter with HOTSPLOTS WiFi for vehicles.

Start the trial period and transfer the router to your HOTSPLOTS customer account

The Bosch Coach Media Router with the serial number 0-000000-0 has successfully connected to our servers. Please choose from the following options to register your router:

- I would like to start the free 3-month trial period and register the router on my HOTSPLOTS account [redacted] at the same time
- I just want to register the router on my HOTSPLOTS user account. [redacted]

If you have any questions, feel free to contact our mobile team. You can reach us by e-mail at bus@hotsplots.de or by phone on +49 30-297348-83.
